

Parat® Safety Lights – NEW Developments 2013

Incorporating advanced in-house developed LED drivers (**miniature SMD technology**), Parat Safety Lights are intended for professionals who require quality and utmost safety under all conditions. Parat Safety Lights are innovative with outstanding overall performance and are likely the only lights built to MILSPECS QC standards. Unlike most competitors, the entire production and distribution chain is inspected and audited (ATEX & IECEx Zone 0 and Zone 20) by an internationally accredited Notified Body!

Parat GmbH, Germany, (principal) and Permalight (Asia) Co., Ltd (manufacturer) are introducing two **NEW** Parat safety light lines:

A. Paralux® certified lighting – ATEX & IECEx Certified

1. Paralux PX 0 : Gas Zone 0, Dust Zone 21, RFI, ESD, EMI shielded - Handheld & Helmet light **(NEW)**
2. Paralux PX 1 : Gas Zone 1, Dust Zone 21 - Handheld & Helmet light
3. Paralux PX 2 : Gas Zone 1, Dust Zone 21 - Penlight **(NEW LED circuit)**
4. Paralux PX 3 : Gas Zone 2 (ATEX) – “Power Penlight” Penlight **(NEW LED circuit)**
5. Paralux HL-P1: Gas Zone 1, Dust Zone 21 – Headlamp **(NEW)**

B. Parat® X-treme – Industrial Safety Lights for ATEX Gas Zone 2 (Increased Lumen)

1. Parat X 1 : Handheld & Helmet light, two light modes **(NEW LED circuit)**
2. Parat X 2 : Penlight **(NEW LED circuit)**
