

PARAT® POLICE LAMP

# PL4

Advanced Police Duty Light – Practical and Reliable

❖ LED   ❖ AA-batteries   ❖ 170 lumens   ❖ polycarbonate housing   ❖ ATEX (Zone 2)

## FLASH

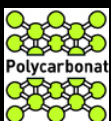

- Bright Cree-LED technology rated at 170 lumens with 4 different functions

## DAZZLE

- Asynchronous fast strobe for complete disorientation

## USE

- Waterproof and drop resistant
- Reinforced polycarbonate housing
- Intrinsically safe, ATEX Zone 2 (Gas)
- Rapid situation assessment under stress
- Extended operation time
- 'Low Power' warning
- Powered by 4 x standard 1,5 V alkaline AA batteries
- Comfortably operated when wearing glove

## Unique in use, equipment and development

PL 4 Police Lamp is the day-to-day duty light developed in response to specific demands received from European Police Forces with the objective to greatly increase the safety of police officers on patrols including when operating in areas where explosive gases might be present (Zone 2, ATEX 94/9/EG). Tested and approved by police units, PL 4 fulfils all operational requirements including tactical handgun shooting.

Geared for action, fast and user-friendly operation.
